EDUCATOR CALLS FOR END OF UN-AMERICAN **'RATTLING OF SABRES'**

STRENGTH MUST LIE IN WORLD PLANNING, **COMMITTEE IS TOLD**

itary committee resumed hearings on the training proposal advocated by President Truman. Hutchins declared that America's strength "must lie in the intelligence and spirit of our people."

"This intelligence and spirit must be devoted to producing a world which can stay at peace," Hutchins testified. "If all efforts in that direction fail, we must with fortitude bear the consequences and defend the remnants of our country as best we can."

Training Said Useless.

Universal military training, he added, would be "the most useless of all forms of preparation."

From the standpoint of defense, survival and reconstruction in an atomic age, Hutchins said, the hest expenditures would be on "expansion of education among all Americans, young and old, until all of us were united in a common understanding and all of us had developed to the maximum and potential character an dintelligence we were born with." He added:

"Wouldn't the implication of that be that you were not going to run?"
"The implication would be very strong," Stevenson said.

Stevenson was then asked if there could be any development that could cause him to get into the race and he replied there was. He would not elaborate on this, but good sources here say that reports of growing sentiment in favor of Dr. Homer P. For Representative 58th District

George O. Nokes, Jr. (above) recently returned Navarro county veteran today announced his candidacy for representative from the 58th District of Texas, subject to the action of the Democratic prifaries.

Nokes a former army officer, was born in the Corbet communi-ty and has resided in Navarro county all his life. He attended the Corsicana public schools and

the Corsicana public schools and graduated from the Mildred High school.

After three years as a student of government at Baylor University, Nokes volunteered for service with the Army Air Forces. He served thirteen months as an enlisted man and was then commissioned and assigned to a heavy bombardment group. Following training with this group and a tour of combat with the Eighth Air Force in England, he was selected to assist in organizing a B-29 Bomb Group destined for duly in the Pacific and was en route

sioned and assigned to a heavy bombardment group. Following training with this group and a tour of combat with the Eighth Air Force in England, he was selected to assist in organizing a B-top Bomb Group destined for duty in the Pacific and was en route to the Japanese theater at the conclusion of the war.

After receiving his discharge, he enrolled at the University of Texas where he is now a student in the College of Law. At the University he has become an outstanding lender in veterans affairs, being instrumental in making a \$1000 loan available to returning servicemen. He is also active in the Baptist Student Union and the recently organized University American Legion Post of which he served as the first adjutant. He also serves on the executive council of the Men's Inter-Community Society, the Forensics Council, and in the Ex-Servicemen's Association.

In addition to his education background in government and his wide experience in the service, hoth in the United States and overseas, Nokes' outstanding shility and leadership well qualifies him to serve as the representative of the people of Navarro county in the Texas legislature. Among the most pressing needs in Texas, according to Nokes, are the equalization of educational facilities between urban and rural areas and the improvement of farm-to-market roads. It is an established fact that educational facilities are wholly inadequate in rural communities as well as mary urban districts.

All of those who believe in progressive and efficient government in Texas are urged to support this Navarro county veteran.
